

*I have a friend who is being taught at Thomas Jefferson High School. He is one of my best friends. We both are being taught in RSM. He tells me Thomas Jefferson High School is one of the most educated schools in VA but I also know that because my mom tells me That. In fourth grade, I decided to find ratings of different schools in VA. I opened the internet and did research. I found out that Thomas Jefferson High School has a really good rating.*

*I was born In Russia on November 25, 2007. On April 25, 2016, I moved to the United States of America. In the Fourth Grade, my Grandma gave me an Astronomy book. I really enjoyed it. Also, my favorite planet is the venus because It has really stormy weather which makes it interesting to study. The temperature is usually 730-740 K. (that's about 863.33F°) because Venus' atmosphere traps the heat in their making It a very hot planet. The color of Venus is really bright because It has acid clouds that reflect the sun and makes It a beautiful planet.*

*I have a lot of other interests I enjoy playing on piano bach prelude in d major (BWV 936). I enjoy playing chess I go to tournaments (I got first place 7 times). I do coding I code on languages HTML, CSS,Java soon I will program in python. I know two languages really well Russian and English also I know about half of Spanish and half of Ukrainian. I also go to RSM (Russian school of Mathematics) Which will give me a lot of advice for the future.*

*I believe Thomas Jefferson High School Will have the best math and science program. Which will help me become a future astronomer.*
